

Application for Accreditation of Learning Activities presented by SAPIK Members

This learning activity accreditation process should be followed when the accreditation of a learning activity is required. This online form should be completed by the SAPIK member who developed and plans to present the learning activity. This process is in place for new learning activities that the CPD Committee are not familiar with or to determine if the learning activity is within the Kinderkinetics scope of practice and is eligible for accredited points.

Learning activities consist of programmes, workshops, congresses, group discussions and educational activities to improve the knowledge, skills and competence of Kinderkineticists.

After receiving the inquiry/application for the accreditation of the learning activity, the CPD Accreditation team will evaluate the learning activity according to the accreditation criteria and provide feedback.

Name and surname:	
SAPIK registration number:	
E-mail address:	
Date of application:	
Topic/theme of learning activity:	

Registration fee (if applicable):	
Place and venue (if applicable):	
Duration of learning activity:
